

Spare Parts

SUESSEN has developed and manufactured the SE 7, SE 8, SE 9, SE 10 SpinBoxes. As you read this, M/s. Schlafhorst has exclusively purchased a staggering 2.4 million SpinBoxes from SUESSEN.

SUESSEN supplies spinning mills directly with these original components.

By working exclusively with SUESSEN Premium Parts, clients can be certain that in the future, they will still be able to receive the well-known original spare parts and all of the upcoming innovations that are provided by SUESSEN. Only SUESSEN has the required level of experience to develop and manufacture these parts and that is because we have been producing them for the last 30 years. At SUESSEN, we remain dedicated to conducting the most extensive research that will enable us to continue to supply the most innovative and improved components to the market, wholly for the benefit of our valued customers.

Thanks to our considerable experience, SUESSEN is also capable of supplying all important spare parts for Autocoro machines, as well as modernization components that will facilitate and increase your production as well as deliver quality improvement.

To find out more about how SUESSEN can be your partner for OE Spare Parts and service, please contact the SUESSEN Premium Parts Department.
