

SC and SQ SpinBoxes

Premium Parts Modernization of Autocoro Rotor Spinning Machines

With over **700** completely modernized Autocoro rotor spinning machines, SUESSEN is the leading supplier of modernization equipment for Open-End rotor spinning machines. The **SC 2 / SQ 2 SpinBoxes** have been specially designed for spinning synthetic fibres.

- Yarn quality is considerably improved
- An average production increase of about 25% (in some cases even 40%) and dramatic reduction in ends-down is feasible
- Rotor speeds up to (and at times exceeding) 135,000 rpm, and delivery speeds of up to 220 m/min are often achievable
- Production costs are reduced
