Süssen, February 21, 2007

2,000,000 SUESSEN EliTe® Compact Spindles

The 2,000,000th EliTe® Compact Spindle was delivered to our esteemed Turkish customer MATESA Tekstil Sanayi ve Ticaret A. . This specific 2,000,000th EliTe® Compact Spindle is installed on a Zinser 350 ring spinning machine.

Out of their total capacity of almost 70,000 conventional ring spindles the company now also processes top quality compact yarns for their own weaving and knitting facilities.

In a small ceremony the SUESSEN Management will symbolically hand over an Award to Mr. A.Galip Çalik /Owner of MATESA Tekstil Sanayi ve Ticaret A. .

MATESA Tekstil A. . was founded in Maras in 1989. First concentrating on yarn manufacturing MATESA Tekstil A. . today is one of the largest and strongest integrated textile companies in Turkey, employing more than 3000 workers.

The four open-end facilities with over 12,000 rotors produce 1,400 tons of yarn per month; the 3 ring spinning facilities with almost 70,000 spindles deliver 1,200 tons.
The range of MATESA's yarn production varies from NE 6/1 to Ne 100/1: 100% cotton, mélange, viscose, polyester/viscose, cotton/polyester, acrylic/cotton, blended yarns with lycra and slub yarns. EliTe® Compact Yarn now completes the product range!

Only 1 ½ years ago during the exhibition ITMA Asia, October 2005 in Singapore, SUESSEN celebrated with their customers and friends the 1,000,000th EliTe® Compact Spindle, awarded to Mr. Ejaz of Ejaz Group of Companies, Pakistan.

Less than a year ago in July 2006, SUESSEN awarded Super Spinning Mills Ltd. India with the 1,500,000th EliTe® Compact Spindle.

The very short time span between these happy events convincingly shows, that EliTe® Compact Spinning has been universally accepted as *the preferred way* to produce highest quality compact yarns, making SUESSEN the No 1 in number of compact spindles sold worldwide.

We thank all our customers world-wide who have contributed to this success!
